Vehicle-mounted access platform

Construction, access & transport

Scan or click QR

Vehicle-mounted aerial platform with orange work basket and deployed stabilisers – rear three-quarter view.

Vehicle-mounted access at height with a work basket and side stabilisers.

At a glance

Working equipment	Work basket
Stabilisation	Lateral

Description

The image series shows an access platform with a work basket and side stabilisers. It must be distinguished from a loader crane. Reach, working height and basket capacity depend on the selection.

Vehicle type & task

Task	Working at height
Equipment shown	Work basket and side stabilisers

Vehicle-mounted access platform

Vehicle type & task

To be specified	Reach, working height and basket capacity
Scope boundaries	Not a loader crane; crane vehicles are a separate offering

Procurement, supply scope & terms

Version	Chassis, body and equipment according to the agreed specification
Terms	On request
Delivery	Date, handover location and transport as agreed
Binding scope	Only the expressly confirmed configuration and agreed scope of supply are authoritative

Enquiry scope

Unarmed vehicle or civilian work body; version and supply scope to be confirmed separately

Context & important notes

• The images are references, not evidence of stock or performance. Models, approvals, equipment scope and availability will be confirmed in the specific quotation.

• Technical figures not stated in the catalogue are not supplemented from images or similar vehicles.

For a specific enquiry

• Required working height, lateral reach and basket capacity

• Ground areas and operating conditions

• Country of operation and actual transport or work task

• Required quantity and preferred delivery period

• Required equipment, documentation and handover conditions
